

Key Features

- HDMI™ upscaling for DVD and VHS³ video (up to 1080p) provides HD-quality resolution on your HDMI compatible TV. HDMI output also simplifies cable connections with the ability to transmit High Definition video and surround sound audio using a single cable³.
- Line Input Recording lets you record your favorite television programs from a cable or satellite set-top box⁴. Record a TV show to DVD or VHS tape to keep your favorite programs as part of your permanent collection.
- USB¹ and i.LINK® One Touch Dubbing² allows you to burn and enjoy your photos and home video from compatible USB or i.LINK®-based digital cameras and camcorders by simply pressing one button on the front of the unit.
- Two-way One-touch Dubbing lets you record from VHS to DVD or reverse with the touch of a button on the front of the unit.
- BRAVIA® Sync™ for Theatre⁷ capability utilizes the HDMI™ CEC function to reduce the hassle and time consuming job of powering up and routing signals to your home theater components. With the simple push of one button on the remote the BRAVIA® Sync™ for Theatre feature powers on and selects the appropriate inputs for your BRAVIA HDTV and HDMI-connected A/V components³.
- Multi-Format DVD compatibility⁵ provides a high level of compatibility with DVD players and recorders with the ability record on and playback DVD-RW/-R/+RW/+R and +R Double Layer media, as well as playback DVD-RAM media.
- Digital Music compatibility lets you playback MP3 files on the DVD recorder. Simply insert an MP3 encoded disc then use the on-screen display to select the folder and file you want to hear.
- View JPEG format digital images burned to CD or DVD media from your digital camera, camcorder, or PC⁵.
- Set-Top Box Controller (IR Blaster) gives you the

RDR-VX560

DVD Recorder & VHS Combo Player

1. Not all products with USB connectors may communicate with each other due to chipset variations and specifications.
2. i.LINK is a trademark of Sony used only to designate that a product contains an IEEE1394 connection. The i.LINK connection may vary depending on the software applications, operating system and compatible i.LINK devices. Not all products with an i.LINK connection may not communicate with each other. Please refer to the documentation that comes with any device having an i.LINK connection for information on compatibility, operating conditions and proper connection. For more information on any Sony device having an i.LINK connection, contact Sony at 1-800-686-7669.
3. Requires HDTV with HDMI connector (sold separately) and equivalent display capability. Upscaled image quality will vary.
4. Line-in Recording feature requires connection to cable, satellite, or other set-top box with built-in ATSC tuner. Cable or satellite service may be required. Fees may apply.
5. Playback may not be compatible with all discs, depending on recording conditions. DVD and CD media/formats are not universally compatible.
6. Multi Brand TV remote is compatible with most major TV brands. Please check your owner's manual to determine compatibility.
7. BRAVIA® Sync™ for Theater works with select Sony television and home theater products. Please check owner's manual to determine compatibility.

 IMPORTANT FACT: U.S. law requires all over-the-air broadcasting to switch from analog to digital signals on February 17, 2009. After that date, this product will require a converter device in order for it to receive/record over-the-air broadcasts via an antenna from your local TV stations. If you are a pay TV subscriber, your cable or satellite box should provide this functionality without additional equipment. Playback of recorded media (e.g. DVD or VHS movies) should remain unaffected.
