

AIR-SA20PK

- S-AIR™ Digital Wireless technology makes multi-room listening² easy with the ability to transmit CD-quality audio from your iPod®¹ player to up to 10 compact, plug-and-play receiver/speaker systems (two supplied).
- The S-AIR™ PLAY is compatible with most iPod®¹ player models.
- Dual source, multi-zone capability allows your Dock to transmit separate signals to each AIR-SA15R receiver/speaker. For example, listen to your iPod® music on one speaker in your living room while the other speaker plays an AM/FM radio station in the kitchen².
- Composite audio/video out connection lets you connect the Dock to a television to view video content stored on your iPod® player on a big screen, or connect the dock to a home theater receiver to listen to stored music through your home audio system². (Cable not included)
- Take total control of your listening environment with included wireless remote controls for your Dock and each AIR-SA15R speaker.
- Remotely control basic iPod® player functions from the AIR-SA15R receiver/speaker, including play/pause, stop, and track forward/back.
- Each AIR-SA15R receiver/speaker features an LCD Display, controls for volume and the audio source, and a convenient clock and alarm.
