

## **Coupon Eligible** **Digital TV Converter Box**

**CECB or Coupon-Eligible Converter Box is a specification for converter boxes eligible to receive subsidy coupons through the U.S. federally-sponsored DTV Converter Box Coupon Program available: January 2008**

The ATSC Converter Box is designed from the consumer perspective to maximize value and performance. This includes an all-channel tuner 2-69, display all DTV formats, display all multicast channels, display program information (PSIP), Input: RF (F connector), Output: RF and composite (3 RCA plugs), remote control, energy saving standards, digital parental control, and closed-captioning for the hearing impaired.

### **FEATURES**

- Digital to Analog TV converter plays an important role in the completion of the digital TV transition
- Designed to easily receive over-the-air ATSC Digital terrestrial broadcasts. Comes equipped with a remote control unit
- The ability to provide on-screen program information sent by local TV broadcasters to easily identify details about TV programming.
- Designed solely to receive digital TV signals with an over-the-air antenna and converts those signals into analog for display through a TV set's analog connections

UPC	6.99339.80150.3

**CECB or Coupon-Eligible Converter Box is a specification for converter boxes eligible to receive subsidy coupons through the U.S. federally-sponsored DTV Converter Box Coupon Program. This program was put into place in order to provide over-the-air TV viewers with an affordable means with which to continue to receive free television services after the digital transition takes effect. The specification was developed by the National Telecommunications and Information Administration (NTIA), with input from the broadcast and consumer electronics industries, as well as public interest groups.**
