### MoGo MouseBT Fast Facts: Frequently Asked Questions

#### What is the MoGo MouseBT?

MoGo MouseBT is a Bluetooth-enabled ([wireless](#)), palm-size mobile mouse. MoGo MouseBT is the perfect solution for road warriors who are unsatisfied with the mouse or [laptop](#) trackpad they're currently using.

#### How does the MoGo MouseBT differ from other travel-size mice?

MoGo MouseBT is the size of a [network card](#), and it is designed to fit comfortably in the user's hand – making it easier to operate than standard or walnut-sized "portamice." It requires no cords for charging because it fits into a standard laptop's [PC card slot](#) for re-charging and storage. In addition, since it's Bluetooth-enabled, it doesn't need the USB RF transmitter required by other wireless mice and operates up to 30 feet from the base laptop.

#### What type of wireless technology does MoGo MouseBT use?

MoGo MouseBT uses Bluetooth wireless technology. Industry analysts In-Stat recently predicted that shipments of Bluetooth-enabled products were expected to double in 2005 from the previous year, for the fourth year in a row.

#### How do I install the MoGo MouseBT? What software do I need?

Simply insert the mouse into the [PC card](#) slot of your Bluetooth-compatible laptop and MoGo MouseBT is ready to use. You will have to perform normal "pairing" from laptop to MoGo Mouse. No additional software is required.

#### Can I use the MoGo MouseBT with any laptop?

Yes, the MoGo MouseBT is compatible with any laptop, either [PC](#) or Macintosh, which is equipped with a PC slot, Bluetooth hardware and software.

#### What if my laptop doesn't support Bluetooth?

If your laptop does not include native Bluetooth capabilities, you can buy a USB-based Bluetooth dongle to support your laptop. It's easily installed, and you are ready to use the MoGo MouseBT.

#### If MoGo MouseBT is so small, how easy is it to operate?

The mouse is effortless to operate and ergonomically friendly. A "flipstand" locks into place and automatically brings the mouse up to a natural position in the user's hand. Two indentations on the top easily enable right and left clicking.

#### What types of batteries does the MoGo MouseBT require?

MoGo MouseBT comes with a built-in, rechargeable battery, and is recharged when it is docked in your laptop's PC card slot. That's a major advantage over other wireless mice, which require frequent change of batteries.

#### How long does it take to charge the MoGo MouseBT?

It only takes a few minutes to an hour to recharge MoGo MouseBT. Place the mouse in the PC card slot while you work, or while the laptop is in "sleep" mode – and it is ready to use on the road. (Note: MoGo MouseBT does not recharge if the laptop is powered down.)

#### How do you store the mouse for travel?

Simply insert the mouse into your laptop's PC card slot. This is one of MoGo MouseBT's primary advantages; it requires no additional storage area, and is literally always at your fingertips.

#### How do I find out more information about MoGo MouseBT?

For more information on MoGo MouseBT, visit [www.newtonperipherals.com](http://www.newtonperipherals.com).

#### How can I see MoGo MouseBT in action?

Yes, go to [www.mogomouse.com](http://www.mogomouse.com), and view the MoGoMercial.

#### What is the warranty for MoGo MouseBT?

The mouse comes with a standard one-year warranty.

#### Where can I buy the MoGo MouseBT?

MoGo MouseBT retails for \$69.95, and is available through authorized resellers at [www.newtonperipherals.com](http://www.newtonperipherals.com)
