

GPS Navigator

# NAVIGON 2100

## NAVIGATION THAT DELIVERS MORE FOR LESS

The NAVIGON 2100 delivers an unmatched navigation experience. Accurate door-to-door directions, stunning 2D and 3D map views, and easy touchscreen menus in an ultra-slimmer portable design make NAVIGON 2100 a standout among even higher-priced GPS devices. With features that no other device has, the NAVIGON 2100 emerges as the best value in its price tier, hands down.

## IT'S EASY WITH VOICE GUIDANCE AND MORE

The NAVIGON 2100 speaks driving directions and street names via advanced text to speech so drivers can focus on the road. Exclusive to NAVIGON brand products, Reality View™ displays 3D images of complex interchanges so you can approach every maneuver with confidence. Feature for feature, the NAVIGON 2100 delivers a more innovative and meaningful navigation experience than systems at twice the price.

## DESIGN COUNTS

Affordability shouldn't mean sacrificing design. With an easy-to-read 3.5 inch touchscreen display and ultra-slim, ultra-lightweight black housing, the NAVIGON 2100 looks as good in your hand as it does on your dash.

## READY TO ADD: LIFETIME TRAFFIC AND ZAGAT® SURVEY RATINGS AND REVIEWS

You can easily integrate other rich content to make the NAVIGON 2100 experience even richer. ZAGAT® SURVEY Ratings and Reviews and Lifetime Traffic services will show you the best places to wine, dine and play—and how to beat the traffic getting there. Both are good for the lifetime of the product. No additional payments or special hardware to buy.

LIFETIME TRAFFIC AND ZAGAT® SURVEY READY!

# NAVIGON 2100

## Navigation that Delivers More for Less
