2 Port VGA Video Splitter - USB Powered

StarTech ID: ST122LE

Stand out in a crowd and impress your audience with multi-screen presentations! StarTech.com's ST122LE allows a computer to display VGA video on two monitors simultaneously. Perfect for classrooms, tradeshows, or in-store displays where high quality video on several monitors is needed. The ST122LE supports displays with up to 300 MHz of bandwidth, providing up to 2048x1536 resolution. A built-in booster circuit lets you locate screens up to 200 ft away from your system, plus easy plug and play installation lets you take your show anywhere and set up in seconds. Backed by StarTech.com's 1-year warranty and FREE lifetime tech support.

Applications and Solutions

- > Quick and easy solution to split a video signal
- > Airports, bus terminals and train stations
