

# INport™ Deluxe

## Record from your stereo to your computer and save all your vinyl records, cassettes tapes and other music!

INport Deluxe builds on the huge success of INport with totally new hardware and powerful new software for even better results! Redesigned from the ground up, INport Deluxe allows users to record all of their favorite vinyl records, cassette tapes and other music from a home stereo into their computer. There isn't an easier way to digitally save valuable audio for conversion into MP3, burning onto CD, or transferring to iPod!

### New Software!

**Simple Recording and Editing Software:** INport Deluxe comes with new intuitive software that makes recording into a computer an absolute breeze. Watch as levels are automatically set and tracks are divided into individual songs. INport Deluxe also runs with all Windows compatible recording and editing software, so users can use their own favorite programs at any time.

**Removes pops and clicks:** INport Deluxe now includes Wave Corrector™, a sophisticated program that automatically removes unwanted pops and clicks in one simple step without effecting fidelity! Fast and amazingly accurate, Wave Corrector makes scratchy old tapes and LPs sound fantastic.

### New Hardware!

**INport Deluxe is packed with the latest technology!** All of INport Deluxe's high-grade components have been carefully selected to provide an exceptionally pure and dynamic signal. From gold plated terminals through to fully customized digital processing, INport Deluxe has been built to exacting standards for flawless performance.

**Amazing sound quality:** INport Deluxe incorporates a totally new processor for the absolute highest level of digital audio performance. All music is recorded as an optimum signal and sent digitally to your computer for the ultimate in fidelity. You'll be amazed at how good INport sounds! Unlike other computer audio products, INport Deluxe includes components and design features found in professional studio equipment. That's what gives it the ability to turn your computer into a powerful recording device!

### Same easy installation!

- Installing is as simple as plugging INport Deluxe into a free USB port - all of the necessary drivers automatically load from there!
- Comes with all necessary cables, including free 30' / 9.2m of audio cable.
- Totally bypasses computer soundcards for the best possible results.
- Save time and money over complex, hard to use recording solutions without sacrificing audio quality!

#### Target Market:

Since the late 70's, more than 6 billion vinyl records and cassette tapes have been distributed through out the USA. Even between 1990 and 1994, the RIAA reports that records and tapes accounted for more than 50% of all pre-recorded music sales. Unfortunately cassette tapes and LP records were never designed to last indefinitely and deteriorate over time. INport Deluxe lets customers digitally save all of their valuable music onto a computer hard drive before it's lost forever! Building on an established sales record with new and improved features, INport Deluxe makes it even easier for millions of listeners to convert their aging music collections into CDs, MP3s and even iPod playlists.
