

Multi-channel surround sound enjoyment from A single compact component!

A perfect match for 32" flat TVs and monitors.

Digital amplifier individually drives 21 sound beam drivers and two woofers to deliver true multi-channel surround sound for an elegant home theatre system.

Digital Sound Projector™ YSP-900

True Surround Sound.

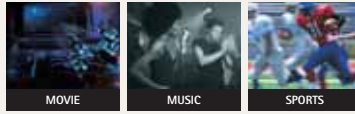

True Multi-Channel Surround Sound

The YSP-900 delivers 5.1 channels of sound that you actually hear from the front, centre and rear. You enjoy the full effect of digital sound from DVDs and satellite and cable broadcasts. Three CINEMA DSP programmes give you a choice of realistic soundscapes.

3 CINEMA DSP Programmes

CINEMA DSP DIGITAL

Digital Sound Projector™ Technology

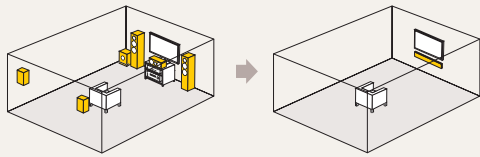

Sound is output from an array of 21 drivers. Sound beams are precisely aimed to reach the listener directly and reflected off the walls in order to realize the ideal surround sound.

Only One Unit, No Speaker Cables.

Slim Design Matches 32" Displays

No worries about positioning numerous speakers! No need for long, troublesome speaker cables! There's only one unit, and the slim design makes placement easy – you can even mount it on the wall. The dimensions are a perfect match for 32" plasma/LCD displays.

Option: SPM-K8 Wall Hanging Bracket

Ready to Go in Minutes.

Requires No Calibration

No complicated calibration is necessary. IntelliBeam automated system calibration automatically sets the sound beam angles and modes for the best surround sound, while optimizing the volume and frequency response of each beam. Your room becomes an ideal theatre space in less than three minutes.

IntelliBeam

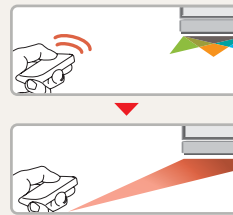

Optimizer Microphone for IntelliBeam

My Beam Playing Back Sound Clearly

Focuses the Sound at a Specific Position with Just a Touch

Instead of surround sound, users can focus the sound to the place where they are sitting. Even in noisy surroundings, you can hear TV sound and dialogue clearly. It is also handy to avoid disturbing others who are sleeping, for

example, as well as helping people who are hard of hearing. You just point the remote control at the YSP unit, hold a button for a few seconds, and the sound is directed right at that spot. There are also four other selectable sound modes: 5 Beam, Stereo + 3 Beam, 3 Beam and Stereo playback.

Main Specifications

[Dimensions (W x H x D)] 800 x 153 x 115mm

[Speakers] Drivers: 4cm x 21, Woofers: 10cm x 2
