Solo

AM/FM Radio

Horizon Solo...it's the first compact AM/FM radio offering you placement flexibility thanks to an innovative rotating control dial that allows you to place the radio vertically or horizontally! Place Solo sideways on a shelf or desk. Stand it up on a kitchen counter or bedside table.

Wherever and however you use it, the sound is large, deep and satisfying. Solo also features Boston's innovative S-n-o-o-o-o-z-e bar, a touch-sensitive outer rim that you can't miss, even when you're half asleep.

The entire outside aluminum trim is
a touch-sensitive snooze bar

Dual independent alarms

Rotating clock face means you can go
vertical or horizontal—your choice

Room-filling sound that fits anywhere.

Solo has been designed to look great — and engineered to sound even better. A precision tuner locks in even distant radio stations. And an advanced full-range driver with Boston's patented BassTrac® audio processing provides rich, clean bass at all listening levels. Your ears will hear all the bass and none of the distortion.

What it means to be from Boston.

First and foremost, Boston is an engineering company, and every Boston system is optimized to meet the highest performance standards (our own). Of course, performance is only one measure of value. So we're careful to build all our products with strict attention to everything from the choice of materials to the fit and finish. It's how we've been exceeding the expectations of serious music listeners for nearly thirty years.

Features

- Precision AM/FM tuner for noise-free reception
- High performance 3½" full-range speaker
